

Saucon Safe Driver Program

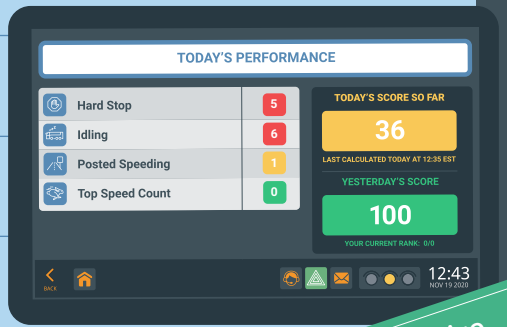

Saucon Safe Driver now includes Accelerometer & Gyroscope capabilities!

These additional features track data and provide instant feedback as it relates to **Harsh Braking, Harsh Turning & Abrupt Lane Changing.**

These additional performance categories combined with **Hard Stops, Idling, Posted Speed** and **Top Speed** provide a complete array of driving data sets that improve driver safety and behavior.

Saucon Safe Driver Event Categories

-  Posted Speeding
-  Top Speed
-  Harsh Turning
-  Harsh Braking
-  Idling
-  Hard Stops
-  Lane Handling

Some features may require 'Additional Calibration'.
